The Graduate Orientation Activities Lunch and Information Event, otherwise known as G.O.A.L.I.E., is a long-standing tradition and was one of the first campus wide orientation events for graduate students. The Graduate Life Office, in partnership with many offices from around campus, bring together a showcase of resources for graduate students. New graduate students are welcome to come and speak with staff from a variety of different support service on campus. In addition to resources, graduate student organizations will be there to talk about their groups.
