

Women's Leadership Development Program

International Women's Day March 8, 2022

Imagine a gender equal world.

A world free of bias, stereotypes, and discrimination.

A world that is diverse, equitable, and inclusive.

A world where difference is valued and celebrated.

Together we can forge women's equality.

Collectively we can all **#BreakTheBias**

International Women's Day (IWD) is celebrated annually on March 8 to mark the social, economic, cultural, and political achievements of women; to raise awareness of discrimination and bias; and to inspire and empower us all to take action for equality.

March is Women's History Month

The **National Women's History Alliance** designates a yearly theme for Women's History Month. The 2022 theme is "Women Providing Healing, Promoting Hope." This theme is "both a tribute to the ceaseless work of caregivers and frontline workers during this ongoing pandemic and also a recognition of the thousands of ways that women of all cultures have provided both healing and hope throughout history."

The week of March 8th was first designated as a national week of recognition in 1980 under President Carter. Since 1995, every United States President designates March as Women's History Month.

The R&DE Women's Leadership Development Council is continuing with its mission to encourage women leaders through personal and professional development. We hold regular get-togethers every month.
